

Correction to Formation of Hollow Upconversion Rare-Earth Fluoride Nanospheres: Nanoscale Kirkendall Effect During Ion Exchange

Fan Zhang, Yifeng Shi, Xiaohong Sun, Dongyuan Zhao, and Galen D. Stucky*

Chem. Mater. **2009**, *21*, 5237–5243. DOI: 10.1021/cm902231s

Page 5238. There is a typographical error in the subsection “Synthesis of Rare Earth Fluoride Hollow Nanosphere”: the amount of Y_2O_3 nanospheres added in a typical synthesis was 0.075 g.

We are grateful to Cheng Chao of the National University of Singapore for bringing this error to our attention.
