Cryst. Growth Des. **2012**, *12*, 2890–2901. DOI: 10.1021/cg300080a

On p 2896 of this paper, the incorrect Figure 7 was published. The corrected Figure 7 appears below (the caption remains unchanged). Also, in the original title of the paper, 1° should be changed to 1st.

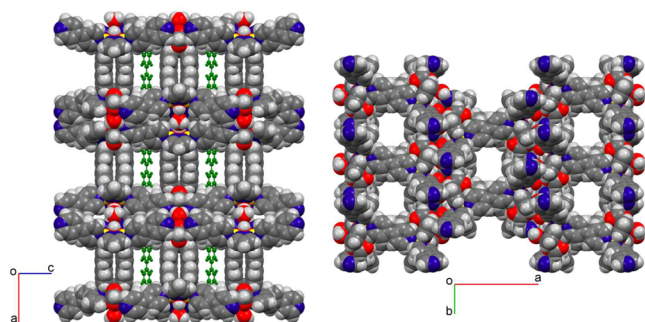

Figure 7. Space filling packing diagram of **3** viewed down the crystallographic *b* (left) and *c* (right) axis. Guest bpy molecules, occupying the channels parallel to *b*, are shown in green and ball-and-stick representation.
